The purpose of this program is to discuss treatment options for challenging orthopedic conditions and discuss the role of the treatment team.

OBJECTIVES
1. Discuss assessment of pediatric leg length difference and treatment options.
2. Discuss common foot disorders, diagnosis, and treatment approaches for acute and chronic issues.
3. Identify key functions and goals in the Trauma Hawk program.
4. Identify the current and future pharmacological care that minimizes risk and improves patient outcomes.
5. Describe early and late side effects from radiation therapy for sarcoma.
6. Describe the role of palliative care and what is advance care planning.
7. Describe how parents and healthcare providers can use distraction to improve pediatric procedure experiences.

Planning Committee:
Hawkeye Chapter #149, NAON – Judy Swafford, RN; Martha Blondin, RN; Melody Machula, RN; Maria Miller, RN; Carol Callaghan, RN; and Jenan Ellis, RN
